

- To run the project on your system just go in the project folder.
- Write cmd in the address bar:

- Now press enter that should open your cmd in windows

- And now type 'project' in there

```
C:\Windows\System32\cmd.exe
Microsoft Windows [Version 10.0.19044.2251]
(c) Microsoft Corporation. All rights reserved.

D:\Sem-3\project>project
```

- And now press Enter and the project should launch.
